

During Dr. Seuss Week, we completed STEM activities that were related to his stories. On March 2nd, it was a celebration for Dr. Seuss' birthday and we dressed up like our favorite storybook character.

Miss. Laurie read to us One Fish, Two Fish, Red Fish, Blue Fish!

For St. Patrick's Day, we did mixing colors! We learned that yellow and blue mix to make green. We colored a shamrock outline with yellow and blue markers. Then, we sprayed them with water and watched them mix!

We used our light tables to mix colors and make numbers! We also enjoyed sorting colors and counting cubes!

Look at these Bulletin Boards!

In Little Stars, Miss. Danielle read The Color Monster and then we graphed how we were feeling. The children used emotion mirrors to copy emotions that were shown in the picture. After, the children practiced drawing different emotions!
