

# Kid Calendar Kit

Year after year students can make a calendar that matches the class sized one ("Class Calendar Kit"- also available through edHelper)! Just have them follow these easy steps...

- A. Print out the included calendar pages and place them on a 12" x 18" sheet of construction paper as shown.
- B. Fold the top portion of the construction paper down and in half. Staple along the top folded edge and through all inside pages to secure. Print, fill out, and cut out the Cover Page. Center and glue it on as shown.
- C. Each month write the date numbers onto the large icons as needed. Remember to cross each one out at the end of the day.

(Example is for January 2013)
